

Create a planning document (2-3 pages at least) for your Fellowship Project. The document must include a title header and the following sections (in the exact order listed):

- **Project Concept**
  - One to three sentence summary of the primary goal, environment setting, and a one to three word description of the mood. Example: *Find the missing mountain climbers in the snowy Swiss Alps. Mood should be one of eerie suspense.*
- **Overview**
  - Paragraph or two that describe at a high level the nature of the project that you intend to create. Please include the genre/game type, whether the experience is to be multiplayer or single player, and sources of inspiration.
- **Engagement Techniques**
  - Describe the techniques that you intend to use in this experience to deliver on the assigned engagement type. Rank these techniques from most important to least important for achieving the assigned engagement type.
- **Mechanics**
  - Identify and describe the mechanics that you intend to implement to support the assigned engagement type.
- **Controls**
  - Describe the game controls for all in-game mechanics.
- **User Interface**
  - Describe the user interface elements that you will be implementing. Wireframe mockups for all game modes are recommended.
- **Learning**
  - How will you teach the player how to play?
- **Feedback**
  - What actions will you be providing visual and audio feedback for, and what assets do you need to create/obtain to provide this feedback?
- **Focal Points**
  - Identify the key visual landmarks of your project that the player will experience.
- **Art Assets**
  - Provide a table of art assets do you need to craft the final experience. For each item, identify the source of these assets or whether you will be creating a new asset.
- **Audio Assets**
  - Provide a table of audio assets do you need to craft the final experience. For each item, identify the source of these assets or whether you will be creating a new asset.
- **Risks & Mitigations**
  - What are the top risks for this plan (be specific) and what will you do to mitigate these risks.

Document must be submitted in Word format. Every page must have headers and/or footers containing:

- DigiPen copyright notice (©2016 DigiPen Institute of Technology)
- Page number
- Your first and last name
- Class/section name and semester (e.g., GAT 315-A: Fall 2015)
- Instructor name (Rich Rowan)
