Machu Picchu

Student Name

Garrett Huxtable

Group Members

Group Representative

King Tut's Tomb OR The Sphinx

Summary The Sphinx faces the rising sun and was once referred to as Ra-horakhty, a reference to the Egyptian god of the sun.

The Great Pyramids of Giza

Summary The interior temperature is a constant 68°F , the average temperature on earth.

Library OR Lighthouse at Alexandria

Summary The construction cost is equivalent to 3 million dollars.

Pyramid of the Sun at Teotihuacan

Summary Half as tall as the Pyramid of Giza but with almost the same size base.

Machu Picchu

Summary Machu Picchu only survived the Spanish conquest because it cannot be seen from below.
